PROFESSIONAL SUMMARY

Software Developer with hands-on internship experience across the full software development lifecycle, from designing backend logic to building user-facing features. Strong foundation in Object-Oriented Programming, Data Structures and Algorithms, and DBMS, with practical experience in Java, C++, and full-stack web development using Node.js, Express.js, MongoDB, and React.js. Quick learner with strong problem-solving skills and a collaborative, team-first approach.

EDUCATION

B.Tech, Computer Science and Engineering	2022 - 2026
Saraswati Higher Education and Technical College, AKTU, Varanasi, UP	
Intermediate (XII), Science	2022
Rashtriya Vidya Mandir Inter College, Jaunpur, UP	
High School (X)	2020
Rashtriya Vidya Mandir Inter College, Jaunpur, UP	

TECHNICAL SKILLS

Languages: Java, C++, SQL

Core Concepts: OOP, DBMS, Data Structures and Algorithms

Frontend: HTML, CSS, React.js

Backend & Database: Node.js, Express.js, MongoDB, PostgreSQL

Developer Tools: Git, GitHub, VS Code, GitHub Copilot, Cursor

Operating System: Linux

EXPERIENCE

Associate Software Engineer Intern | Nivraj Software Solutions Pvt. Ltd., Lucknow, UP *Feb 2026 - Aug 2026*

- Completed a full-time internship as part of the software engineering team, contributing to the design, development, and testing of application features across the stack.
- Built backend logic and REST APIs using Node.js and Express.js, applying OOP and DSA concepts for clean, efficient code.
- Worked with MongoDB for data modeling and storage, and React.js for building responsive, user-facing components.
- Collaborated with mentors and team members using Git/GitHub for version control, and participated in code reviews to improve code quality.
- Applied strong analytical and debugging skills to resolve issues and deliver assigned tasks within timelines.

PROJECTS

Local Service Provider | *PERN Stack* | *Frontend & Backend* 2026

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, PostgreSQL

- Built a full-stack web application connecting users with local service providers, enabling end-to-end service booking through a responsive, user-friendly interface.
- Implemented user authentication, service search and booking, provider profiles, and REST API integration, with PostgreSQL for relational data storage.

Smart Clean City | *Frontend & Backend* 2025

Technologies: HTML, CSS, Node.js, Express.js, MongoDB

- Developed a web-based platform for managing cleanliness complaints across cities and villages, with a Node.js/Express.js backend and MongoDB for data storage.
- Implemented user registration, login, complaint submission, and complaint tracking features.

Todo Task | *Frontend & Backend* 2025

Technologies: HTML, CSS, Node.js, Express.js, MongoDB

- Built a task management web application to add, update, and delete daily tasks.
- Implemented backend logic with Node.js and Express.js, with MongoDB for persistent task storage.
